

September 18, 2025: On Donald Trump's OCD Spying

Donald Trump: You have got to take your lousy spying operation out of our home. You have become a pathetic wreck since this all began. If you seriously expected us to 'bow' to your evil way then you are sadly mistaken.

Get away from us. We immediately denounced you once you showed us your evil attempt to extort us by spying on us inside of our home and our life. We did not 'deceive' you - there is no moral justification for your actions. You are simply scared and obsessed with the information that I have within my home and mind.

Go away now. Nothing that you are doing has helped you in any way.

In fact, you have exposed yourself as a murderer. You are clearly a novice criminal that deserves none of the success that you have been handed. You failed and failing, old man.

Get out of our home. (You're not God. You're not an 'evil' genius. And you are certainly not 'stable' or smart. You have shown your ways. We see through your 'hidden hand' facade and we all realize that you are full of evil.)

Staying here only serves to expose yourself more and more throughout your failing second term. We cannot wait until the next president steps up to ruin America.

The next s/he monster will certainly be no worse than you. You, Donald Trump, set the bar higher than anyone else will ever seek to embarrass themselves again.

(Donald's machines have already responded that Donald has no control over his own self, his own actions, or his own mind.)

(Donald Trump is a weakened tiny-mind that cannot control his own actions.)

(I am seriously, honestly, alerting law enforcement: Donald Trump has become unfit for office of the President of the United States of America.)
